ISTEP+: Grade 3

English/Language Arts

Released Items and Scoring Notes
Introduction

Indiana students in Grades 3-8 participated in the ISTEP+ Spring 2013 administration. The test for ISTEP+ in Spring 2013 consisted of an Applied Skills section administered in March and a Multiple-Choice section administered in late April and early May. For all grades, the Applied Skills section of the assessment was hand-scored by trained evaluators. The Multiple-Choice section was machine-scored. Scores for the Applied Skills and Multiple-Choice sections are combined to generate a student’s total score.

Test results for both the Multiple-Choice and Applied Skills sections, as well as images of the Applied Skills student responses, are available online. It is the expectation of the Indiana Department of Education that schools will take this opportunity to have a conversation with parents and students about the results. As a springboard for this conversation, the Indiana Department of Education has created this document which outlines the released Applied Skills questions and includes brief scoring notes that describe the given score points and explain the scoring rules and expectations for the individual questions.

This document consists of:

- a brief description of the types of questions assessed
- a short summary of scoring rules utilized by the trained evaluators
- access to rubrics used to score student responses
- a copy of the released Applied Skills questions
- anchor papers used by evaluators to distinguish between rubric scores

**NOTE:** The Applied Skills operational questions are released at the end of each test administration. It is important to keep in mind that a significant portion of a student’s score is calculated from the Multiple-Choice section of the assessment, which is not addressed within this document.
QUESTION TYPES

This document addresses the Applied Skills section of ISTEP+, which allows students to demonstrate their understanding of content in a variety of ways. The Applied Skills Assessment consists of constructed-response (CR) and extended-response (ER) questions. CR and ER questions are cognitively more demanding than multiple-choice (MC) questions. ER questions are typically more complex and will likely require more steps to respond. For English/Language Arts, a Writing Prompt (WP) is also used to assess students.

SCORING

For the Applied Skills Assessment, each question is scored according to a rubric. Rubrics clearly define the requirements for each score point. Each student response is evaluated individually to determine whether it is acceptable. This allows student scores to be reported as accurately as possible. To ensure consistency when scoring the ISTEP+ questions, CTB/McGraw-Hill works closely with assessment specialists at the Indiana Department of Education and teacher committees to set guidelines for scoring student responses. Committees look at several student papers and score them using the rubrics. Some of the student responses are selected as anchor papers and are used as clear examples of specific score points. Samples of anchor papers are presented within this document. Scoring supervisors then use anchor papers and approved, scored student responses to ensure that responses are evaluated appropriately and consistently. Individuals who evaluate and score ISTEP+ student responses must have a four-year college degree and pass a series of qualifying tests on specific questions before they can evaluate any student responses.

If a response is unscorable, it is assigned one of the following condition codes:

A Blank/No Response/Refusal
B Illegible
C Written predominantly in a language other than English
D Insufficient response/Copied from text
E Response not related to test questions or scoring rule (not applied to Mathematics questions)

For additional information regarding ISTEP+ or other student assessments, please contact the Indiana Department of Education by calling 317-232-9050 or writing via email: istep@doe.in.gov.
The chart below summarizes the question types used to measure a student’s mastery of content, the assessment that contains the particular question type, the standards assessed in each assessment, and the scoring method used to evaluate a student’s response given the question type.

**Scoring Note:** All student responses to questions found in each Applied Skills Assessment are hand-scored using the specific rubric(s) outlined in the column labeled “Scoring Method.” As indicated in the chart, all multiple-choice questions are machine scored.

Prewriting Activity

- Use the space on the next page to help you plan your writing.
- Be sure your writing has a beginning, a middle, and an end.
- Be sure to include details to make your writing interesting.
- Here are some questions to help you in your writing:
  ✓ What was your difficult task?
  ✓ Why did you have to do the task?
  ✓ Why did you think the task was difficult?

Cleaning the Laundry Room

“OK!” I said when I was told to clean the laundry room, also known as my cat Abby’s room. I had to do the task because Abby’s litterbox stunk, the floor was covered in litter, there was cat fur everywhere, and my dad is allergic to cats. So it had to be done. The first thing I did was clean Abby’s litterbox. I got the litterbox scooped out well, and took the trash bag out, tied it up and put it in the garbage. I got a new trash bag, put it in the litterbox and poured fresh kitty litter in. My cat came running into the room and did her business. Next, I dusted and shook her blanket outside and got most of the fur off. Then I got a tub and filled it with water and soap, got a few sponges, and started scrubbing the floor. It was kind of fun because I enjoy helping and being with my cat. She was sitting there the whole time, watching patiently for me to be done. I finally finished scrubbing, the fun part came next, drying. I got a towel and I stepped on it. I glided across the floor. Abby’s room was clean!

Difficult jobs

One day I had to wash clothes and take out the dogs. My mom was going on a trip for her job she was going to be gone for three weeks. I was going to miss her alot. My mom told me I was the lady of the house. The next day I started washing clothes. It was difficult but I stuck with it. I have to do the job because my mom is out of town and my dad was outside doing yard work so I washed clothes. Washing clothes was difficult because you have to sort a big pile of clothes, then you have to put them in the washer and you have to wait. While I waited I took care of the dogs. I took them outside and I fed them the clothes still weren’t done so I cleaned my room. When I was done cleaning my room, the clothes were done so I put them in the dryer. Twelve hours later they were done so I put them in a bucket, folded the clothes and put them up. When I was done I felt proud and sleepy. I sat on the couch, fell over and fell asleep.

- contains a limited and simple vocabulary.
- has little fluency.
- demonstrates no understanding of sentence variety.
- displays no sense of audience.

NOTE: Per the Writing Applications Rubric (Grades 3-4), a Score Point 1 paper represents a performance that fails to accomplish the task. It exhibits considerable difficulty in areas of development, organization, and writing style. The writing is generally too brief or rambling or repetitive, sometimes resulting in a response that may be difficult to read or comprehend.

Language Conventions – Score Point 1

The following list describes a writing sample (shown on the previous page) that earns a Score Point 1 using the ISTEP+ Language Conventions Rubric.

This sample

- has no errors in beginning capitalization or in the capitalization of proper nouns.
- has no ending punctuation errors.
- has one subject and verb agreement error (e.g., That time test make [made] me fel sad.).
- includes numerous grade-level spelling errors in proportion to its overall length (e.g., to [test], time [timed], Relley [really], head [hard], fel [feel]).
- contains one run-on sentences (e.g., I took a time to I don’t remubr the numbers.), but no sentence fragments.
Session three, English/Language Arts, contains a reading comprehension task. This task allows the students to demonstrate their understanding and comprehension of narrative or informational text. The reading comprehension task consists of one passage and several constructed-response (CR) questions. Because this is a reading comprehension task, all the information students need to answer the questions correctly is in the text. All responses should be based on information from the text and will be scored for reading comprehension only. The following pages show the CR questions.

An example of a top-score response is given for each CR question. The top-score response demonstrates a performance that exceeds the expectations of what is required to receive two points. The top-score response contains multiple pieces of text-based information and support drawn from the reading passage that accompanied this item, many elements of which students typically use in their responses to receive two points.

Each CR question is followed by sample student responses, called anchor papers. The anchor papers are accompanied by explanations of the score points received.

Top-Score Responses:

Excited
Jill loves sweet corn so she planted three rows of it. She was excited to eat it so she checked the sweet corn often, waiting for the moment she could sink her teeth into it. When the first leaves came through the ground, she pulled her dad over to see them. She was also excited when the newspapers worked to keep the raccoons away.

Frustrated:
Jill is frustrated when she finds the animal tracks in her garden. She sees that several ears of corn are torn up and thrown on the ground, and she starts to cry. Later, she is frustrated when the dew soaks through the newspapers around her cornstalks. She learns that she has to take her father’s advice and keep putting down fresh newspapers. The crunchy sound of dry newspapers is the only thing that keeps the raccoons away.

Note: The top-score response contains multiple pieces of text-based information and support drawn from the reading passage that accompanied this item, many elements of which students typically use in their responses to receive two points.

Question 4

Read this story. Then complete the writing activity that follows.

Matt’s Move

His mother was wrong. It was not going to be easy. He would have to make new friends all over again. The first day at his new school was going to be terrible. He just knew it. Everyone would stare at him and wonder, “Who’s the new kid?” The teacher would pronounce his last name wrong. They always did. At recess, on the playground, he would be alone watching everyone else play basketball with their buddies. That was the worst part! He would have to try out to get on the basketball team at the new school. What if he didn’t make it? He couldn’t handle that. Matt did not want to move.

Finish the story. Tell what happens to Matt. Be sure to include details to support your writing.

Even though he didn’t want it to come moving day came. When he got to school the next day just as he thought the teacher pronounced his name wrong. “Just what I need” thought Matt “another teacher that pronounces my last name wrong.” Then when recess came he sat alone just as he thought. “This is going to be a bad day.” Matt said to himself. When he was at lunch he heard people asking “Who’s the new kid?” In gym class his luck suddenly changed. They had to get partners for this activity, so the gym teacher asked if anyone wanted to be Matt’s partner. The only one she had was a girl named Alicia. She was tall and skinny with long wavy blond hair. By the end of gym class him and Alicia were best friends. When free time came Alicia and Matt talked together the whole time. When Matt was walking home he found out that Alicia was his neighbor. After he got home he told his mom and dad all about today.
